

Mechanical temperature and pressure compensator

Model: TPCK□□□

Model	TPCK0040	TPCK0200	TPCK0300	TPCK0600	TPCK1000
Structure	Mechanical, rainproof construction				
Ambient temperature	-10°C~+60°C				
Range of temperature compensation	-10°C~+60°C				
Corrected pressure range (kPa)	10.1~40	20~200	40~300	150~600	250~990
Reference temperature	Standard 15°C (Can be set in the range of 0.0 to 25.0°C)				
Reference pressure	Standard 1 kPa (settable in the range of 0 to 3 kPa)				
Accuracy of temperature and pressure compensation	±1.0%
